

# Green Coffee Automated AI Grading

get all the quality data

in less than 5 min

QSorter<sup>®</sup>

## QSorter<sup>®</sup>: the future of the green coffee inspection

### Technology Highlights

- Single bean analysis
- 3D color images
- InGaAs spectroscopy
- 300 g < 5 min
- SQI2 cloud data
- Single bean distribution

### Quality Parameters

- Visual defects
- Size
- Moisture
- Color
- Protein
- Sucrose
- Lipids

## The machine learning robot for the physical and biochemical inspection of green coffee

High repeatability, no subjectivity and plenty of data insights

Grading results in international and proprietary standards

Quality reports immediately available in the SQI2 cloud

Easy to operate, remote scientific support
